Hey guys,

Please remember that Eric, Matt, and I are the task monitors on the TDD and if you wish to change the number of personnel or dates/times worked by the START contractors to, we need to change them. At the very least, we need to be informed of these discussions. Individuals who are not TMs/CORs on the TDD and/or on the contract should not provide direction to the contractors without the knowledge of the TMs/CORs.

Thanks

Paige Delgado

**Subject:** tomorrow

Brad,

We only received data from 3 boats today. Two of those boats reported that they are headed for port. I heard on the radio this morning that, while Alex isn't expected to head directly for the recovery area, they ARE expecting 12' seas there. Given that information, I've been talking with EPA EUL Don Smith. We aren't expecting any boat data for tomorrow. He proposed that we check the EPAOSC site at 0600. If there's boat data submitted, we can come in and do summaries. If there's no boat data, we can write the summaries from home and submit them by the same 1130 deadline.

What do you think about this? I'm thinking you may have more info on this.

Let me know and I'll go back to Don with an agreement.

Thanks,  
Todd
